

Antenna - GSM Wire

6DBI

Description:

This is high gain Omni-directional with flexible springy magnetic stand base antenna. This antenna has SMA Male Connector with 3mtr.RG174 cable. This is Wall Mount Antenna which is easily clinging to iron surface like outdoor/indoor windows, cars, boat houses, and many more. The antenna is widely compatible with all cellular operators 2G/3G/4G LTE/CDMA/WADMA/GSM FCT devices and wireless communication devices as WI-FI Adapter, Wireless Router wireless CCTV camera, AP WLAN STB Modem Amplifier and more. Also applicable with all signal amplifier deceives which has SMA Female Connector.

Specifications:

Electrical Specifications:

Frequency Range	698-2700 MHz
Gain	6dBi

Antenna - GSM Wire 6DBI

VSWR	≤ 1.5
Polarization	Vertical and horizontally
Impedance	50ohm
Connector	SMA Male
Operating Temperature	-40°C to +80°C
Radiation	Omni directional

Mechanical Specifications:

Coaxial cable	RG174 (3mm diameter)
Wire length	3M/10ft
Size	30cm/12inch

Application:

4G wireless Router or Modem.
